Re: Meeting Minutes

Dear Steve:

I do have a correction to the January 25, 2002 meeting minutes. In 5.1, I believe I indicated UK would not want to release the organ until there were sufficient funds to complete the repairs to the organ, but that LFUCG would have additional concerns and that it would probably not want to begin work until there was money in hand to complete the project. UK is willing to discuss releasing the organ before KMW-TOP has raised 100% of the building renovation and endowment requirements.

→ I do not recall your stating that KMW-TOP wanted to purchase the organ, but I note that it appears the terms of the Oscar Wilson Will would not allow UK to sell it. However, if KMW-TOP has any interest in filing a declaratory judgment action seeking court approval to authorize a sale, we would be happy to explore this possibility.

Very truly yours,

Katherine A. Adams  
Associate General Counsel
