Katherine:

I have requested a formal face to face meeting with Mayor Gray to discuss any future opportunities for the Wurlitzer Organ to return to the Kentucky Theatre; and also to fully understand why the LFUCG is throwing away an opportunity to benefit from the Economic Development opportunities that Kentucky's Mighty Wurlitzer's (KMW) project would have brought to the historic Kentucky Theatre and its future viability.

I have requested this face to face meeting with thru Maurine Watson on two separate occasions, and so far no meeting has been scheduled with Mayor Gray. Presumably, I will be receiving a boiler plate correspondence suggesting that I contact the LFUCG Department of Law. I will not contact the Law Department concerning a simple matter of requesting a simple meeting with Mayor Gray to discuss the aforementioned Wurlitzer Project.

Be that as it may, on a significantly more important matter; KMW's Project Donors, which donated major funds to ensure this 3/18 Wurlitzer Organ Project which would return to its rightful home in the Historic Kentucky Theatre, will be honored!

Be that as it may, to ensure "**Honoring of KMW Donors**" is respected and is maintained by the University of Kentucky, as title-holder of the original 3/14 Wurlitzer Organ, I am requesting the University to provide a **Donor Honoring Agreement**, whereby by these Donors will be honored by any future third-party, which might proceed with this Wurlitzer Organ in any future venue. This Agreement shall provide an irrevocable bind to the Wurlitzer Organ title and filed with the Fayette County Clerk. This reason for this bind is obvious.

On March 15, 2016, KMW will be posting a Media Release for this Project Update, and I would like to include this appropriate "Honoring of the KMW Donors" by the University of Kentucky.

Respectfully,

H. Steven Brown, President
Kentucky's Mighty Wurlitzer
